

Design an EpiPen carrier for kids

Children who are susceptible to anaphylactic shock must carry their EpiPen on them at all times. Design an EpiPen carrier to make it obvious what it contains, that is quick and easy to open, but makes carrying it more fun or 'cool'. If a child likes their EpiPen carrier, they are more likely to keep it with them!

List 5 things that your design must do or be like for it to be a success.
