

Teacher of Systems Engineering/Robotics

One of Australia's leading independent schools for boys, Scotch College is renowned for its innovation in pedagogy, exceptional teaching and learning facilities, and its commitment to offering a broad education to develop each boy to his full potential.

Scotch College seeks to appoint a suitably qualified teacher to this permanent full time position from the start of 2023. The successful applicant will have the capacity to teach VCE Systems Engineering Unit 1-4 and Robotics across Years 9 and 10. An interest in Computer Aided Technologies, along with the ability to teach Design and Technology to classes through Years 7-10 is desirable, but not essential. The position provides an opportunity to join a department which values high quality teaching, applies iterative design approaches and operates out of a state of the art facility. The ability to inspire boys' imaginative thinking through a design process, leading to the creation of innovative real world solutions will also be important.

Support of the College's Christian philosophy and co-curriculum is an expectation of all staff.

Further information about this position and the application process is available via www.scotch.vic.edu.au/about/employment.aspx

Scotch College has been accredited as a Safe School by the Australian Childhood Foundation. All applicants are required to provide referee, proof of identity and academic qualifications checks prior to employment.

Closing date: Monday 17th October 2022
